HOW TO CURE CONSUMPTION.

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES.—Will people never learn to know that a diseased liver and stomach necessarily disease the entire system? The plainest principles of common sense tell us this and yet there are hundreds who ridicule the idea and continue in the course which almost inevitably brings them prematurely to the grave. Living as we do, a majority of the people do, at completo variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act: the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded idea of the past. Dr. SCHENCK'S medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every sitting man or woman in the lands a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudice them against these new celebrated remedies for consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of ten the seat of the disorder will be found in the stomach and liver. To cleanse and invigorate the stomach and to stimulate the liver to healthy action, use

SCHENCK'S MANDRAKE PILLS.—The daily increasing demand for these pills in the best evidence of their value. Thousands upon thousands of boxes are sold daily. Why? Simply because they act promptly and efficiently. Invalids who may not find it convenient to call on Dr. SCHENCK in person are informed that full and complete directions for use accompany each package of the

MANDRAKE PILLS, PULMONIC SYRUP AND SEAWEED TONIC.—These medicines will cure consumption unless the lungs are so far gone that the patient is entire ly beyond the reach of medical relief.

It may be asked by those who are not familiar with the virtues of these great remedies, "How do Dr. Schenck's medicines effect their wonderful cures of consumption?"

The answer is a simple one. They begin their work of restoration by bringing the stomach, liver and bowels into an active healthy condition. It is by the use of these this formidable disease. SCHENCK'S MANDRAKE PILLS act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of those organs, and of the system generally. This sluggish state of the body, and the consequent accumulation of the unhealthy substances named prevent the proper digestion of food, and, as a natural consequence creates disease, which results in prostration and finally in death.

SCHENCK'S PULMONIC SYRUP and SEAWEED TONIC, when taken regularly, mingle with the food, and the digestive organs, make good rich blood, and as a natural consequence, give flesh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved beyond the shadow of a doubt, and thousands are to-day alive and well who a few years since were hurried on by apothecaries, but who were induced to try Dr. SCHENCK'S remedies, and were restored to permanent health by their use.

One of the first steps the physician should take with a consumptive patient is to invigorate the system. How how is this to be done? Certainly not by giving medicines that exhaust and enervate—medicines that impair instead of improve the functions of the digestive organs Doctor SCHENCK'S medicines cleanse the stomach and bowels of all substances that are calculated to irritate or weaken them. They create an appetite—promote healthful digestion—make good blood, and, as a consequence, they invigorate and strengthen the entire system and more especially those parts which are diseased If this cannot be done, then the case must be regarded as a hopeless one.

If the physician finds it impossible to make a patient feel hungry, if the deceased person cannot partake of good nourishing food and properly digest it, it is impossible that he can gain in flesh and strength; and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach laden with unhealthy slime.

Almost the first request made to the physician by a consumptive patient is that he will prescribe medicines that will allay the cough, night sweats and chills, which are the sure attendants on consumption. But this should not be done, as the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggravate rather than cure the disease.

There is, after all, nothing like facts which to substantiate a position, and it is upon facts that Dr. Schenck relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of all impurities, they lay the foundation for a solid, substantial structure. Restoring those organs to health, they create an appetite. The food is properly assimilated; the quantity of blood is not only increased, but is made rich and strong and in the face of such a condition of the system all disease must be banished.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr SCHENCK personally, unless they desire to have their lungs examined. For this purpose he is at his office, No. 15 North Sixth St., corner of Commerce, Phila., every Saturday, from 9 A. M. until 1 P. M.

Advice is given without charge, but for a thorough examination with the Re-pirometer the charge is $5.

Price of the Pulmonic Syrup and Seaweed Tonic each, $1.50 per bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. Ap.17,'71.

☞ The latest news from Cuba is that the patriots have been successful.

☞ Seventy Chinese have invaded New Jersey. They are going into the laundry business.

☞ On account of no appropriations having been made for continuing the work of the Freedmen's Bureau, its work in the South has been closed.

☞ Enthusiastic politics, all over the State, seems to be a dead cock in the pit. Still somebody will be elected, and the Democratic party will come out second best.

THE TICKETS.—The regular Republican tickets have been printed and are in the hands of J. Sylvanus Blair, Chairman of the County Committee, for distribution in each election district in the county.

The Republican party in Iowa has never lost a State election since the party organized. It carries every Congressional district, and out of one hundred counties all but six. Its usual majority in the State is about 40,000.

BUT TWO WEEKS.

Next Tuesday a week the Republicans of the county are expected to go to the polls and elect the Republicans nominated by the party. Every Republican knows the importance of electing the ticket, and we have no doubt a full vote of the party will be at the polls.

Declines.

To the Editors of the Globe:—Having been nominated for the office of County Commissioner by the Workingman's Union Party, upon mature reflection I would respectfully decline being a candidate and would take this opportunity to return my thanks to my friends for the honor conferred upon me and for the friendly feeling manifested in my behalf.

HENRY COOK.

☞ The Democracy of New York met in Rochester, on the 20th, and nominated John T. Hoffman for Governor. A number of resolutions were passed, in substance as follows: Denouncing the present Administration, advocating free trade, upbraiding Congress, tickling the Germans, palavering the Irish, throwing dirt on the imported Chinese, and a heap more buncombe.

War and pestilence have renewed their old friendship, and are stalking along the earth arm-in-arm. The cholera rages on the shores of the Black Sea, the black vomito is devastating the Spanish cities, the most virulent form of the camp disease decimates the Prussian armies, and the foot of the enemy has been set upon our own country in the shape of the dreaded yellow fever. New Orleans is his landing place.

The Grand Lodge of Odd Fellows at Baltimore, have elected the following officers: Grand Sire, Frederick Stewart, of Washington; Deputy Grand Sire, A. C. Logan, of Kansas; Grand Secretary, James L. Ridgely, of Maryland; Grand Treasurer, Joshua Vansant, of Indiana. The report of the Grand Treasurer was presented. It shows a cash balance in the Treasury, on September 19th, of $20,271 and other assets to the amount of about $10,000.

HON. HENRY WILSON, of Massachusetts, in his address before the Republican Invincibles at the Academy of Music, Philadelphia, on Friday, the 16th, said that under Gen. Grant, we have introduced reforms in the Government, reduced the expenditures and secured to every citizen his just rights. Our debt has been reduced in eighteen months $170,000,000, while during the same period in Johnson's time the reduction was only $1,500,000, and to-day the currency of the country is worth $75,000,000 more than it was when Gen. Grant was inaugurated President. The Republican party was born for the purpose of reform, and within its ranks all reform will be found.

It is estimated that $21,000,000 is annualy spent for beer in the United States.

IMPORTANT NEWSPAPER CHANGE.—The *Hearth and Home*, a finely illustrated family journal of a high character, hitherto issued by Messrs. Pettengill, Bates & Co, has been purchased by Messrs. Orange Judd & Co., of 245 Broadway, New York, the well known publishers of the *American Agriculturist*. Messrs. Pettengill & Co., whose great Advertising Agency, established in 1849, is one of the largest and most reputable in the world, find that their extensive business requires their exclusive attention, and they therefore transfer *Hearth and Home* to the new publishers, whose long experience and abundant facilities will enable them not only to maintain the past high character of the paper, but to add materially to its value. The news publishers also announce a reduction of the terms to $3 per year. The change will not at all affect the *American Agriculturist*, which will continue on independently as heretofore. The illustrations and reading matter of the two journals will be entirely different.—Either of the journals will be furnished from now to the end of 1871 (15 months), at the yearly subscription rate, viz: the *weekly Hearth and Home* at $3; the *monthly American Agriculturist* at $1.50; or the two for $4.

WAR SUMMARY.—The Prussian forces surround Paris, and communication with the French capital is entirely cut off. The French show no signs of yielding. General Trochu claims to have an army of over 400,000 trained soldiers within the Paris entrenchments. On Monday a portion of this force under Gen. Vin Vinay sallied out and made an attack upon the besiegers. The French, after severe loss on both sides, were driven back into their entrenchments. Strasburg still holds out, and so does Bazaine at Metz.—There is no show of capitulation in either fortress, on the part of the French

On the night of the 20th the Italian troops under Victor Emanuel forced the gates of Rome and entered the city. The foreign soldiery offered but slight resistance. The population is nearly crazed with delight.

☞ THE GLOBE is a most interesting country newspaper, published at Huntingdon in this State, and among our best exchanges. It is well edited, and the choice selections are chosen by a hand, which thoroughly understands what is wanted by the newspaper reading public. Mr. WM. LEWIS and Mr. HUGH LINDSAY are the publishers. The latter gentleman was in our office a day or two ago, on his return from an extended tour of observation. We wish him much pleasure and abundant success. City advertisers desiring to reach Huntingdon and Cambria counties, should remember the "*Globe*" as a first class medium in the interests of their trade.—*Philadelphia Trade Journal.*

DEATH FROM A SLIGHT CAUSE.—On Thursday last, Mr. William Wise, a young farmer in the prime of life, residing about four miles northeast of Hagerstown, died from an attack of lockjaw, produced in a somewhat singular manner. A week or ten days previously he had injured the bottom of his foot by tramping upon the point of an old corn stalk, but the wound did not give him much uneasiness and healed up very rapidly. On Sunday last, however, the foot inflamed, giving him much pain, and soon brought on a violent contraction of the muscles of the jaw and the entire body, so that the latter became perfectly rigid, and in this condition he died. After death his foot was opened, and a small piece of the cornstalk was found in the wound, which no doubt caused the inflamation and subsequent death. He leaves a wife and child, and was very much esteemed by a large circle of friends and acquaintances.

35th district, composed of the borough of Three Springs at the public school house in said borough.

I also make known and give notice, as in and by the 12th section of the aforesaid act I am directed, that "every person, excepting justices of the peace, who shall hold any office or appointment of profit or trust under the government of the United States, or of this State, or of any city or corporated district, who, he a commissioned officer or agent, who is or shall be employed under the legislative, executive or judiciary department of this State, or of the United States, or of any city or incorporated district, and also, that every member of Congress, and of the State Legislature, and of the select or common council of any city, commissioners of any incorporated district, is by law incapable of holding or exercising at the same time, the office or appointment of judge, inspector or clerk of any election of this Commonwealth, and that no inspector or judge, or other officer of any such election shall be eligible to any office to be then voted for."

Also, that in the 4th section of the Act of Assembly, entitled "An Act relating to executions and for other purposes," approved April 16th, 1840, it is enacted that the aforesaid 12th section "shall not be so construed as to prevent any militia or borough officer from serving as judge, or inspector or clerk of any general or special election in this Commonwealth."

By the act of Assembly of 1839, known as the Registry Law, it is provided as follows:

1. "Election Officers are to open the polls between the hours of six and seven, A. M., on the day of election.—Before six o'clock in the morning of second Tuesday of October they are to receive from the County Commissioners the Registered List of Voters and all necessary election blanks. and they are to permit no man to vote whose name is not on said list, unless he shall make proof of his right to vote as follows:

2. The person whose name is not on the list, claiming the right to vote must produce a qualified voter of the district to swear in a written or printed affidavit to the residence of the claimant in the district for at least ten days next preceding said election, defining clearly where the residence of the person was.

3. The party claiming the right to vote shall also make an affidavit, stating to the best of his knowledge and belief where and when he was born, that he is a citizen of Pennsylvania and of the United States, that he has resided in the State one year, or, if formerly a citizen therein and removed therefrom, that he has resided therein six months next preceding said election, that he has not moved into the district for the purpose of voting therein, that he has paid a State or county tax within two years, which was assessed at least ten days before the election, and the affidavit shall state when and where the tax was assessed and paid, and the tax receipt must be produced unless the affiant shall state that it has been lost or destroyed, or that he received none.

4. If the applicant be a naturalized citizen, he must, in addition to the foregoing proofs, state in his affidavit *when*, where, and by what court he was naturalized and produce his certificate of naturalization.

5. Every person, claiming to be a naturalized citizen, whether on the registry list, or producing affidavit as as aforesaid, shall be required to produce his naturalization certificate at the election before voting, except where he has been for ten years consecutively a voter in the district where he offers to vote; and on the vote of such a person being received, the Election Officers are to write or stamp the word "voted" on his certificate with the month and year, and no other vote can be cast that day in virtue of said certificate except where votes are entitled to vote upon the naturalization of their father.

6. If the person claiming to vote who is not registered shall make an affidavit that he is a native born citizen of the United States, or, if born elsewhere, shall produce evidence of his naturalization, or that he is entitled to citizenship by reason of his father's naturalization, and further, that he is between 21 and 22 years of age, and has resided in the State one year, and in the election district ten days next preceding the election, he shall be entitled to vote though he shall not have paid taxes."

In accordance with the provision of the 8th section of an act entitled "A further supplement to the election Laws of this Commonwealth," I publish the following:

WHEREAS, By the act of the Congress of the United States, entitled "an act to amend the several acts heretofore passed to provide for the enrolling and calling out of the national forces, and for other purposes," and approved March 3d, 1865, all persons who have deserted the military or naval service of the United States, and who have not been discharged or relieved from the penalty or disability therein provided, are deemed and taken to have voluntarily relinquished and forfeited their rights of citizenship and their rights to become citizens, and are deprived of exercising any rights of citizens thereof:

And whereas, Persons not citizens of the United States are not, under the Constitution and laws of Pennsylvania qualified electors of this Commonwealth.

SECTION 1. *Be it enacted, &c.*, That in all elections hereafter to be held in this Commonwealth, it shall be unlawful for the judge or inspectors of any such election to receive any ballot or ballots from any person or persons embraced in the provisions and subject to the disability imposed by said act of Congress, approved March 3d, 1865; and it shall be unlawful for any such person to offer to vote any ballot or ballots.

SEC. 2. That if any such judge and inspectors of election, or any one of them shall receive or consent to receive any such unlawful ballot or ballots from any such disqualified person, he or they so offending shall be guilty of a misdemeanor, and on conviction thereof in any court of quarter sessions of this commonwealth, he shall for each offence, be sentenced to pay a fine of not less than one hundred dollars and to undergo an imprisonment in the jail of the proper county for not less than sixty days.

SEC. 3. That if any person deprived of citizenship, and disqualified as aforesaid, shall, at any election hereafter to be held in this commonwealth, vote, or tender to the officers thereof, and offer to vote, a ballot or ballots, any person so offending shall be deemed guilty of a misdemeanor, and on conviction thereof in any court of quarter sessions of this commonwealth, shall for each offence be punished in like manner as is provided in the preceding section of this act in case of officers of election receiving any such unlawful ballot or ballots.

SECTION 4. That if any person shall hereafter persuade or advise any person or persons, deprived of citizenship or disqualified as aforesaid, to offer any ballot or ballots to the officers of any election hereafter to be held in this Commonwealth, or shall persuade, or advise, any such officer to receive any ballot, or ballots, from any person deprived of citizenship, and disqualified as aforesaid, such person so offending shall be guilty of a misdemeanor, and upon conviction thereof in any court of quarter sessions of this Commonwealth, shall be punished in like manner as provided in the second section of this act in the case of officers of such election receiving such unlawful ballot or ballots.

Particular attention is directed to the first section of the Act of Assembly, passed the 30th day of March A. D., 1866, entitled "An Act regulating the manner of Voting at all elections, in the several counties of this Commonwealth:"

"That the qualified voters of the several counties of this Commonwealth, at all general, township, borough and special elections, are hereby, hereafter, authorized and required to vote, by tickets, printed or written, or partly printed and partly written, severally classified as follows: One ticket shall embrace the names of all judges of courts voted for, and be labelled outside "judiciary;" one ticket shall embrace all the names of State officers voted for and be labelled "State;" one ticket shall embrace the names of all county officers voted for, including office of Senator, member, and members of Assembly, if voted for and members of Congress, if voted for, and labelled "county;" one ticket shall embrace the names of all township officers voted for, and be labelled "township;" one ticket shall embrace the names of all borough officers voted for, and be labelled "borough;" and each class shall be deposited in separate ballot boxes.

Pursuant to the provisions contained in the 67th section of the act aforesaid, the judges of the aforesaid districts shall respectively take charge of the certificate or return of the election of their respective districts, and produce them at a meeting of one of the judges from each district at the Court House, in the borough of Hunting ton, on the third day after the day of election, being for the present year on FRIDAY, the 14th of OCTOBER, then and there to do and perform the duties required by law of said judges. Also, that where a judge by sickness or unavoidable accident, is unable to attend said meeting of Judges, then the certificate or return aforesaid shall be taken in charge by one of the inspectors or clerks of the election of said district, and shall do and perform the duties required of said judge unable to attend.

Also, that in the 61st section of said act it is enacted that "every general and special election shall be opened between the hours of eight and ten in the forenoon, and shall continue without interruption or adjournment until seven o'clock in the evening, when the polls shall be closed."

EXECUTIVE CHAMBER,
HARRISBURG, Pa., August 27, 1870.

To the County Commissioners and Sheriff of the County of Huntingdon.

WHEREAS, the Fifteenth Amendment of the Constitution of the United States is as follows:

"SECTION 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States, or by any State, on account of race, color or previous condition of servitude."

"SECTION 2. The Congress shall have power to enforce this article by appropriate legislation."

And whereas, The Congress of the United States, on the 31st day of March, 1870, passed an act, entitled "*An Act to enforce the right of citizens of the United States to vote in the several States of this Union, and for other purposes,*" the first and second sections of which are as follows:

"SECTION 1. *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That all citizens of the United States, who are, or shall be otherwise qualified by law to vote at any election by the people, in any State, Territory, district, county, city, parish, township, school district, municipality or other territorial sub-division, shall be entitled and allowed to vote at all such elections, without distinction of race, color, or previous condition of servitude; any Constitution, law, custom, usage, or regulation of any Territory or by, or under its authority, to the contrary notwithstanding."

"SECTION 2. *And be it further enacted*, That if by or under the authority of the Constitution or laws of any State, or the laws of any Territory, any act is or shall be required to be done as a prerequisite or qualification for voting, and by such Constitution or law, persons or officers are or may be charged with the performance of duties in furnishing to citizens an opportunity to perform such prerequisite, or to become qualified to vote, it shall be the duty of every such person and officer to give to all citizens of the United States the same and equal opportunity to perform such prerequisite, and to become qualified to vote without distinction of race, color, or previous condition of servitude; and if any such person or officer shall refuse or knowingly omit to give full effect to this section, he shall, for every such offence, forfeit and pay the sum of five hundred dollars to the person aggrieved thereby, to be recovered by an action on the case, with full costs and such allowance for counsel fees as the court shall deem just, and shall also, for every such offence, be deemed guilty of a misdemeanor, and shall on conviction thereof, be fined not less than five hundred dollars, or be imprisoned not less than one month and not more than one year, or both, at the discretion of the court."

And whereas, It is declared by the second section of the VIth article of the Constitution of the United States, that "This Constitution, and the laws of the United States, which shall be made in pursuance thereof, shall be the supreme law of the land, * * * anything *in the Constitution or laws of any State to the contrary notwithstanding.*"

And whereas, The legislature of this Commonwealth, on the 6th day of April, A. D. 1870, passed an act, entitled, "A further supplement to the act relating to elections in this Commonwealth," the tenth section of which provides as follows:

"SECTION 10. That no muen of every act of Assembly a inclusive, shall only which freemen shall be entitled to vote or be registered as voters, or as claiming to vote at any general or special election of this Commonwealth, be and the same is hereby repealed; and that hereafter all persons, without distinction of color, shall be enrolled and registered according to the provisions of the first section of the act approved seventeenth April, 1869, entitled "An Act further supplemental to the act relating to the elections of this Commonwealth," and when otherwise qualified under existing laws, be entitled to vote at all general and special elections in this Commonwealth."

And whereas, It is my constitutional and official duty to "take care that the laws be faithfully executed;" and it has come to my knowledge that sundry assessors and registers of voters have refused, and are refusing to assess and register divers colored male citizens of lawful age, and otherwise qualified as electors:

NOW, THEREFORE, In consideration of the premises, the county commissioners of said county are hereby notified and directed to instruct the several assessors and registers of voters therein, to obey and conform to the requirements of said constitutional amendment and laws; and the sheriff of said county is hereby authorized and required to publish in his election proclamation for the next ensuing elections, the herein recited constitutional amendment, act of Congress, and act of the Legislature, to the end that the same may be known, executed and obeyed by all assessors, registers of voters, *election officers and others*; and that the rights and privileges guaranteed thereby may be secured to all the citizens of this Commonwealth entitled to the same.

Given under my hand and the great seal of the State, at Harrisburg, the day and year first above written.

ARRANGEMENTS COMPLETED — The work upon the new buildings, and other improvements, on the grounds of the Altoona Park Association, will be completed in a day or two, and all things ready for the reception of stock and articles, and the opening of the Exhibition. The new building is 16 feet wide, 80 feet long, 12 feet high to the square, comb roof covered with shingles, and well floored. It will be much better lighted than the other buildings, and is intended specially for ladies' work, paintings, and fine articles. The construction of this building gives almost double the amount of room the Association had last year, consequently there will be less crowding of articles, and all will be exhibited to much better advantage.

A train of passenger cars will be run between the depot, in front of the Logan House, and the grounds, every half hour, during the continuance of the Exhibition.

The driving course is in excellent condition and in constant use—quite a number of horses entered for speed being now in the stables on the ground, as also others that are under training. The Exhibition opens Oct. 4th, and closes Oct. 7th.

$4,500,00 In Premiums!

Competion open to all parts of the State!

The Association takes pleasure in calling the attention of the public to the very liberal premiums offered this year. They equal those of the State Society, on similar classes. The design of this liberality is to produce friendly competition, and at the same time remunerate exhibitors and visitors.

The premiums on thoroughbred horses and cattle amount to over $600,00, and all the other classes are equally liberal. For the ladies, some $300,00 worth of silver ware has been purchased, and will be distributed as premiums for the work of their hands. These premiums range in value from $1,00 up to $15,000, and many of the articles are beautiful, and the Managers believe they will be prized much more than the same amount paid in money.

For full particulars, see premium list, published in pamphlet form, and to be had of any of the officers or Managers.

New buildings will be added to those already on the ground, and everything provided for the convenience of exhibitors and satisfaction of visitors.

AGENTS Wanted for SATAN IN SOCIETY

A NEW BOOK of the greatest interest and importance Written from a high moral and physiological standpoint by an eminent physician and medical professor, it shows how Satan is working out his subtle and dangerous designs through our most sacred domestic and social plantations. Fully illustrated, but outspoken and aggressive, the author handles the delicate subjects treated of with gloves, but in such a manner as not to intensify to a gourmet curiosity. The Physical Regeneration of the Race, is a subject justly enlisting the interest and sympathy of all true philanthropists, and this book, it is believed, will contribute to that end just in proportion as it has readers A circular sent free, containing a full description and synopsis of the work with liberal extracts. ROSADALIS

THE Great American Health Restorer, purifier of the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and thousands of our best citizens.

Read the testimony of Physicians and patients who have used the trial sent for our Rosadalis Guide to Health or Almanac for this year, which we publish for gratuitous distribution. It will give you much valuable information.

Dr. R. W. CITY, of Baltimore says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have used it in most in two cases with happy results—one in case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other in a case of scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of scrofula and secondary Syphilis with satisfactory results—as a cleaner of the blood I know no better remedy.

Samuel G. McFadden, Murfreesboro', Tennessee, says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio writes, I have suffered for twenty years with an ulcer into eruption over my body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by John Read and S. S. Smith, Huntingdon, Pa., and Druggists generally.

ROOTS—TURNIPS—BEETS—CARROTS.

If there be any who still hold that this country must ultimately rival that magnificent Turnip culture which has so largely transformed the agricultural industry of England and Scotland, while signally and beneficently increasing its annual product, I judge that time will prove them mistaken. The striking diversity of climate between the opposite coasts of the Atlantic forbid the realization of their hopes. The British Isles, with a considerable portion of the adjacent coast of Continental Europe, have a climate so modified by the Gulf Stream and the ocean that their Summers are usually moist and cool, their Autumns still more so, and their Winters rarely so cold as to freeze the earth considerably; while our Summers and Autumns are comparatively hot and dry; our Winters in part intensely cold, so as to freeze the earth solid for a foot or more. Hence every variety of turnip is exposed here in its tenderer stages to the ravages of every devouring insect; while the 1st of December often finds the soil of all but our Southern and Pacific States so frozen that cannon-wheels would hardly track it, and roots not previously dug must remain fast in the earth for weeks and often for months. Hence, the turnip can never grow so luxuriantly, nor be counted on with such certainty, here as in Great Britain; nor can animals be fed on it in Winter, except at the heavy cost of pulling or digging, cutting off the tops and carefully housing in Autumn, and then slicing and feeding out in the Winter. It is manifest that turnips thus handled, however economically, cannot compete with hay and cornfodder in our Eastern and Middle states; nor with these and the cheaper species of grain in the West, as the daily Winter food of cattle.

Still, I hold that our stock-growing farmers profitably may, and ultimately will, grow *some* turnips to be fed out to their growing and working animals. A good meal of turnips given twice a week, if not oftener, to these, will agreeably and usefully break the monotony of living exclusively on dry fodder, and will give a relish to their hay or cut stalks and straw, which cannot fail to tell upon their appetite, growth and thrift. Let our cattle-breeders begin with growing an acre or two each of Swedes per annum, so as to give their stock a good feed of them, sliced thin in an effective machine, at least once a week, and I feel confident that they will continue to grow turnips, and will grow more and more of them through our future years.

The beet seems to me better adapted to our climate, especially south of the fortieth degree of north latitude, than any variety of the Turnip with which I am acquainted, and destined, in the good time coming, when we shall have at least doubled the average depth of our soil, to very extensive cultivation among us. I am not regarding either of these roots with reference to its use as human food, since our farmers generally understand that use at least as well as I do nor will I here consider at length the use of the beet in the production of Sugar. I value that use highly, believing that millions of the poorer classes throughout Europe have been enabled to enjoy Sugar through its manufacture from the beet who would rarely or never have tasted that luxury in the absence of this manufacture. The people of Europe thus made familiar with sugar can hardly be fewer than 100,000,000, and the number is annually increasing. The cost of Sugar to these is considerably less in money, while immeasurably less in labor, than it would or could have been had the tropical cane been still regarded as the only plant available for the production of Sugar.

But the West Indies, wherein the cane flourishes luxuriantly and renews itself perennially, lie at our doors.—They look to us for most of their daily bread, and for many other necessaries of life; while several, if not all of them, are manifestly destined, in the natural progress of events, to invoke the protection of our flag. I do not, therefore, feel confident that beet sugar now promises to become an important staple destined to take a high rank among the products of our national industry. With cheap labor, I believe to-day it might be manufactured with profit in the rich deep valleys of California, and perhaps in those of Utah and Colorado as well. On the whole, however, I cannot deem the prospect encouraging for the American romoters of the manufacture of beet sugar.

But when we shall have deepened essentially the soil of our arable acres, fertilized it abundantly, and cured it by faithful cultivation of its vicious addiction to weed-growing, I believe we shall devote millions of those acres to the growth of beets for cattle food and, having learned how to harvest as well as till them mainly by machinery, with little help from hand labor, we shall produce them with eminent profit and satisfaction to the grower. On soil fully two feet deep, thoroughly underdrained and amply fertilized, I believe we shall often produce one thousand bushels of beet to the acre; and so much acceptable and valuable food for cattle can hardly be obtained from an acre in any other form.

So with regard to carrots. I have never achieved eminent success in growing these nor beets, mainly because the soil on which I attempted to grow them was not adapted to, or rather not yet in condition, for such culture. But, should I live a few years longer, until my reclaimed swamp shall have become thoroughly sweetened and civilized, I mean to grow on some part there 1,000 bushels of carrots per acre, and a still larger product of beets; and the carrot in my judgment, ought now to be extensively grown in the South and West, as well as in this section, for feeding horses. I hold that 60 bushels of carrots and 50 of oats, fed in alternate meals, are of at least equal value as horse feed with 100 bushels of oats alone, while more easily grown in this climate. The oat crop makes heavy drafts upon the soil, while our hot summers are not congenial to its thrift or perfection. Since we must grow oats we must be content to import new seed every ten or fifteen years from Scotland, Norway, and other countries which have cooler, moister summers than our own; for the oat will inevitable degenerate under such suns as blazed through the latter half of our recent June. Believing that the carrot may profitably replace at least half the oats now grown in this country, I look forward with confidence to its more and more extensive cultivation.

ADDRESS
TO THE
NERVOUS AND DEBILITATED,

WHOSE SUFFERINGS HAVE BEEN PROTRACTED FROM HIDDEN CAUSES, AND WHOSE CASES REQUIRE

PROMPT TREATMENT.

TO RENDER EXISTENCE DESIRABLE

If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urine organs, or your kidneys, get out of order? Is your urine sometimes thick, milky or ropy, or is it ropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of faluting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you rest less nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged, they are always polite and pleasant in company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only ruin their constitution, but those they do business with or for.

How many men, from badly cured diseases, from the effects of self abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every form of disease humanity is heir to—and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

DISEASES OF THESE ORGANS REQUIRE THE USE OF A

DIURETIC.

COUGHS, SORE THROAT, ETC
No medicine or treatment can excel the powerful curative power of
DR. SIMMS'
WHITE PULMONIC BALSAM.
It cures with a rapidity unequalled by any other remedy offered for throat and lung diseases. It is recommended by over 2,000 persons in Wilmington; and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of
COUGHS, COLDS, SORE THROAT,
ASTHMA, BRONCHITIS, CROUP,
BLOOD SPITTING, HOARSENESS, and even Pulmonary Consumption, where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used according to directions. We guarantee it all we represent it be, and invite a trial from the afflicted everywhere. Price 50 cts., medium size, and $1 for large size bottles. Prepared only by
